

PRESS RELEASE FOR IMMEDIATE RELEASE

Otogawa-Anschel Design Build Featured in Parade of Homes Remodelers ShowcaseSM

Minneapolis, MN (October 6, 2004)

The public is invited to tour two homes recently remodeled by Otogawa-Anschel General Contractors and Consultants, an award-winning design-build firm located in Minneapolis, during the upcoming 2004 Parade of Homes Remodelers ShowcaseSM. The homes are located at 3836 Pillsbury Avenue South in Minneapolis and 6331 Blaisdell Avenue South in Richfield, and will be open to the public on **Friday, October 15th from 1:00-7:00pm, and Saturday, October 16th and Sunday, October 17th from 12:00-6:00pm.**

- **3836 Pillsbury Avenue South:** Features a back-of-house kitchen, mud room, and home office addition which unites classic, Four Square style with modern convenience and design. The kitchen includes custom birch cabinets and trim work cut to match the original 1912 cabinets. In the stone-floored mud room, open wall cubbies at feet-level keep shoes out of sight. A short staircase of carved wood and an arched passage-way lead to the home office. Stepped wall partitions and soffits throughout the area present an open atmosphere and afford glimpses of each space's unique color palette.
- **6331 Blaisdell Avenue South:** Features a value-driven, brand new second level that adds a master suite, kids' rooms, full bath, and a shared space to this charming, urban home. Cool curves facilitate an intuitive flow and also define generous closet spaces, conceal pipes, and even offer a secret hideaway for adventurous toddlers. In the bathroom, a claw-foot tub and pedestal sink add to the classic 1930s feel of the home. The homeowners did much of the work themselves in order to create a budget-conscious solution for their growing family.

These two distinct projects are demonstrative of Otogawa-Anschel General Contractors and Consultant's ability to work within a client's budget to design a unique space which fits the client's needs, while maintaining a commitment to quality construction.
